

32. A preparation as claimed in claim 31 wherein the lipid consists of a mixture of esterified glycerol and phospholipid.

33. A preparation as claimed in claim 32, wherein the esterified glycerol consists of di- and triglyceride.

34. A preparation as claims in claim 32, wherein the esterified glycerol is a diester.

35. A preparation as claimed in claim 32, wherein the esterified glycerol is a triester.

36. A preparation as claimed in claim 31, wherein the liquid consists of a mixture of phospholipids.

37. A preparation as claimed in claim 36, wherein the phospholipid is a sphingomyeline.

38. A preparation as claimed in claim 36, wherein the phospholipid is a phosphatidyl choline.

39. A preparation as claimed in claim 31, wherein the lipid is prepared from a vegetable oil or egg yolk.

40. A preparation as claimed in claim 31, wherein the lipid consists of at least one phospholipid and water or some other water-based liquid as carrier.

41. A preparation as claimed in claim 40, wherein the lipid is in a lamellar floating crystalline phase.

42. A preparation as claimed in claim 40, wherein the weight ratio between lipid and water or some other water-based liquid is in the order of 1:2 to 10:1, preferably 3:2 to 4:1.

43. A preparation as claimed in claim 31, wherein the biopolymer contains a glycoaminoglycan, for example hyaluronic acid.

44. A preparation as claimed in claim 43, wherein it consists of a free-flowing mixture of sodium hyaluronic acid and calcium phosphate granules which can be packed and then rehydrated in connection with use.

Pub B4
45. A preparation as claimed in claim 30, wherein the calcium phosphate granules have a Ca/P ratio which is between 1 and 2.

46. A preparation as claimed in claim 45, wherein the calcium phosphate contains hydroxyapatite of the form $\text{Ca}_{10}(\text{PO}_4)_6(\text{OH})_2$.

Pub B5
47. A preparation as claimed in claim 45, wherein the calcium phosphate contains dicalcium phosphate dihydrate, octacalcium phosphate, tricalcium phosphate and/or hydroxyapatite.

48. A preparation as claimed in claim 45, wherein the calcium phosphate contains magnesium, fluorine or carbonate ions.

49. A preparation as claimed in claim 45, wherein the calcium phosphate granules have a diameter in the order of 0.05 mm to 5 mm.

50. A preparation as claimed in claim 45, wherein the calcium phosphate granules have a porosity of 0-80%.

51. A preparation as claimed in claim 31, wherein the weight ratio between the calcium phosphate granules and the lipid is in the order of 70:15 to 60:40.

Pub B6
52. A preparation as claimed in claim 31, wherein it contains tissue-promoting factors and/or factors which inhibit decomposition of tissue, for example a growth factor, such as BMP and TGF beta or parts thereof.

53. A preparation as claimed in claim 31, wherein the tissue-promoting factor is added wholly or partially.

REMARKS

The claims have been amended to conform with the claims as amended in the international application. None of these amendments is believed to involve any new matter. Accordingly, it is respectfully requested that the foregoing amendments be
